SUBJECT APPROACH

Cosmetology and Beauty therapy is the study and application of Beauty Treatments which can improve the appearance of a person. It is the science which focuses on making people look good. It comprises of many branches which includes Beauty Therapy and treatments for face hair body and overall health care. Trained Cosmetologists can find well paid jobs in luxurious beauty parlours, high end salons and five star

hotels and resorts. Makeup artists are always needed in advertising, television and film industry. The world of fashion requires the services of cosmetologist to groom the models. Other options like consultant, writing books and articles, sales consultants to develop and market cosmetics/beauty care products open new job horizons. Many go on to set up their own salons and clinics.

The development of Cosmetology represents an important breakthrough in health and beauty sciences. Great technological developments have already taken place in the field and many are yet to occur. Cosmetology arose as a completely new field, flourishing at an astounding speed in recent years in India as well as abroad.

SUBJECT APPROACH

Cosmetology is a demanding field requiring artistic, technical, entrepreneurial and communication skills. It comprises of many branches which include beauty therapy and treatments for face, hair, body and overall health care. In fast developing countries like India, demand for cosmetology is uprising and leave lot of influence with the development of IT sector

SYLLABUS

Module - 1

Skin care

1.1 Skin

1.1.1 Introduction

1.2 Cosmetics and Equipments

Importance of sanitation and sterilization

1.3 Cosmetic science

1.4 Introduction of skin

- a) Structure
- b) Glands
- c) Functions
- d) Types of skin
- e) Skin disorders
- f) Skin care

1.5 Health, Nutrition and physiology

- a) Health, Nutrition
- b) Physiology of the head, face, neck, hands, feet, lowerarm

1.6 Facial mask and pack

Introduction, Ingredients, Mixing, application and use

1.7 Facial treatments

1.7.1 Importance of massage, Benefits, massage strokes

1.7.2 Facial for dry skin

Almond facial

Banana facial

Choco facial

Mixed fruit facial

1.7.3 Facial for oily skin

Papaya facial

Glycolic facial

Galvanic facial

1.7.4 Facial for normal skin

Vitamin E facial

Fruit facial

Golden facial

1.7.5 Pimple treatment

Veg. peel

Sebum control facial

Saline facial

High frequency

1.7.6 Pigmentation treatment

Diamond facial

Thermo herb

Anti tan

Pearl facial

Platinum facial

1.7.7 Spa treatments

Skin whitening spa facial

1.7.8 Treatment for under eye dark circle

Eye spa treatment

1.8 Bleaching

Introduction

Importance of patch test

Ingredients
 Application
 Advantages and disadvantages
 After care

1.9 Nail and Nail disorders

Introduction
 Structure
 Purpose
 Composition
 Shape

1.10 Nail disorders

Split nails
 Hang nails
 Brittle nails

10. Nail care

Manicure/French manicure
 Pedicure/Fish pedicure
 Nail Art
 Artificial nail fixing

Module II

Hair care

1. Hair

Introduction
 Composition
 Layers of hair
 Life and density
 Types of hair

2. Hair disorders and treatments

Dandruff, split ends, Falling hair
 Treatments
 Hot oil treatment
 Henna treatment

3. Hair care

- Shampooing
- Conditioning
- Pro-keratin
- Spa-treatment
- Protein treatment

4 Hair setting

- Smoothing
- Straightening
- Blow drying
- Ironing
- Hair colouring

5. Hair cutting and styling

Straight cut	Petals	French plait
U- cut	Butterfly	Grapes
V-Cut	Pineapple	Fishbone
Feather cut	Pea cock	Apple pony
Hayer cut	8 knot	
Blunt cut	Frenchroll	Trendy hair styles

6. Hair removal methods

- Threading
- Waning
- Deplication and epitation

LEARNING OUTCOMES

Cosmetologists employ a variety of skills in their careers. They need to have the technical skills to perform a wide range of beauty treatments, the creative skills and vision to identify what each individual client needs.

- The learner will be able to interpret the scope of cosmetology, its definition and its importance. They can perceive the job opportunities and new trends in cosmetology.
- Learner will be able to know about the cosmetics and equipments.
- Learner will be able to identify the cosmetics and equipments.
- Handle different sterilization units.
- Understands the PH scale and how the PH of the skin interacts with the PH of products applied.
- Identify and understand the key ingredients in products for face,

hands and feet and depilatory products and the effects in uses they have in treatments.

- Understand and explain the contra-indications, benefits and cautions.
- Identify skin structure, classify glands and functions.
- Classify skin types, identify disorders, recommends skin care.
- Learner will be able to understand nutrients
- To understand the basic concepts of Nutrition and utilize it effectively for the individual and family needs
- Learner equips an additional knowledge on the nutritional inputs related to fitness and nutritional needs during various forms of exercises
- Learner will be able to prepare diet chart
- Learner will be identify muscles, bones, nerves of the face, neck and shoulder region plus those of the lower leg, foot, lower arm and head
- Understand the properties and uses of a variety of face mask and pack.
- Able to select, prepare, apply and remove safely and effectively the face pack and mask.
- Understand the massage strokes and benefits.
- Demonstrate different types of facial for dry skin.
- Demonstrate different types of facial for oily skin.
- Demonstrate different types of normal skin facial.
- Demonstrate different pimple treatment.
- Demonstrate different pigmentation treatment.
- Demonstrate spa facials.
- Demonstrate treatment for under eye dark circle.
- Able to recognise the advantages and disadvantages of bleaching.
- Able to know the importance of patch test, its ingredients used and its application method through demonstration.
- Learner will be able to interpret the meaning of onychology and explain the purpose of nail.
- Learner will be able to draw and identify the parts of nail.
- Learner will be able to explain the composition of nail and identify different shapes of nails.
- Learner will be able to observe and identify the nail disorders.
- Learner will be able to explain and recognize the contra indications to manicure and pedicure.
- Learner will be able to understand the problems and prevent the damage of nail.
- Learner will be able to do different nail designs.

- Learner will be able to do the artificial nail fixing.

Module 2

- Learner will be able to define trichology – and explain its purpose.
- Learner will be able to summarize the chemical composition and classify the divisions and layers of hair.
- Learner will be able to identify the types of hair.
- Learner will be able to identify the disorders and differentiate proper treatments.
- Learner will be able to handle proper hair caring.
- Learner will be able to do different types of hair setting.
- Learner will be able to do different haircuts and styles.
- Learner will be able to do proper hair removing methods.
- Learner will be able to compare the various waxing treatments available and their benefits.

SCHEME OF WORK

Module 1 - Skin care

Month	Unit No	Name of Units	Periods
			Theory
June	1.1	Introduction	5
July	1.2	Cosmetics and Equipments	5
	1.3	Importance of Sterilisation and Sanitation	
		Cosmetic Science	10
August	1.4	Introduction of skin	20
September	1.5	Health, Nutrition and Physiology	15
	1.6	Facial masks and packs	5
	1.7	Facial treatments	12
October		Bleaching	5
	1.9	Nail and Nail disorders	20
	1.10	Hands and Nail care	5

Module II - Hair care

Month	Unit No	Name of Units	Periods Theory
November	2.1	Hair	25
December	2.2	Hair disorders and treatments	15
	2.3	Hair Care	20
January	2.4	Hair setting	12
February	2.5	Hair cutting and styling	20
March	2.6	Hair removal methods	10

COURSE STRUCTURE

This course will consist of four modules

MODULE 1. Skin care

- 1.1. Introduction
- 1.2 Cosmetics and Equipments, Importance of sanitation and sterilization
- 1.3 Cosmetic science
- 1.4 Introduction of skin
- 1.5 Health, Nutrition and Physiology
- 1.6 Facial masks and packs
- 1.7 Facial Treatments
- 1.8 Bleaching
- 1.9 Nail and Nail Disorders
- 1.10 Hand and Nail care

MODULE 2 . Hair care

- 2.1. Hair
- 2.2 Hair Disorders and treatments
- 2.3 Hair Care
- 2.4 Hair Settings
- 2.5 Hair cutting & Styles
- 2.6 Hair removal methods

MODULE 3 . Makeup Artistry

- 3.1 Art of make up
- 3.2 Mehendi Designing
- 3.3 Flower arrangement and Bouquet Setting
- 3.4 Jewel Making

MODULE 4 . Beauty BusinessManagement

- 4.1 Personality Development
- 4.2 Exercise & Wellness Training
- 4.3 Yoga
- 4.4 Beauty and Wellness Entrepreneurship

Sl.No	Name of Module	Total periods
1	Skin care	340
2	Hair care	340
3	Makeup Artistry	340
4	Beauty BusinessManagement	340

CLASS ROOM ACTIVITIES

- Product presentation
- Lectures
- Pictures
- Video Presentation
- Chart Presentation
- Collage Presentation
- Chart preparation
- CDs
- Interactions with representatives
- Discussions
- Project
- Demonstration
- Panel Discussion
- Seminar
- Debate
- Quiz

- Practical
- Multimedia
- Exhibition
- Workshop
- Role play
- Mock Interviews

PRACTICAL ACTIVITIES

- Practicals
- Demonstration
- Pictures
- Discussions
- Case study
- Interactions with experts
- Interviews with experts
- Field visit
- OJT
- CD presentations

ON THE JOB TRAINING

OJT is an essential part of vocational education to impart techniques scheduled as per the modules in related industries. As there is no government organisation as on the job training centre its done in private parlours. Students acquire practical skill about skin, face and hair care while understanding the human anatomy and learning about the tools of cosmetology.

Certification of skills in each module

- Certificate in Skin care
- Certificate in Hair care
- Certificate in Makeup Artistry
- Certificate in Beauty Business Management

OVERVIEW OF MODULE - 1

Cosmetology is a lucrative career option with the earnings rising higher with experience and reputation. The industry offers various careers for these professionals to excel and grow. Cosmetology arose as a completely new field flourishing at an astounding speed in recent years in India as well as abroad.

MODULE 1

SKIN CARE

Periods: 340

Unit No.	Name of units	Theory	Practical
1.1	Introduction	5	
1.2	Cosmetics and Equipments, Importance of sanitation and sterilization	5	10
1.3	Cosmetic science	10	
1.4	Introduction of skin	20	10
1.5	Health, Nutrition and Physiology	15	
1.6	Facial masks and packs	5	8
1.7	Facial Treatments	12	155
1.8	Bleaching	5	15
1.9	Nail and Nail Disorders	20	
1.10	Hand and Nail care	5	40
Total periods		102	238
Grand Total		340 hrs	

POINTS FOR DISCUSSION

- Definition
- Different scopes in the field of Cosmetology
- Importance of Cosmetology
- Job opportunities available
- New trends of Cosmetology

CE POSSIBILITIES

- Assignment
- Seminar
- Unit test
- Group discussion
- Questionnaire
- Quiz
- Test paper
- Picture collection

PRACTICAL ASSESSMENT

- Practical test
- Demonstration
- Identification
- Analyzing the treatment

DETAILING OF ACTIVITIES

1.1.1 : Introduction of Hair

Suggested Activities :

- Lectures
- Discussion
- CD presentation
- Charts

Teacher explains trichology, purpose of hair, life and density of hair.
Teacher will draw the structure of hair and explain its parts

POINTS OF DISCUSSION

- Defenition
- Hair - importance
- Purpose of hair
- Life and density
- Composition of hair
- Division and layers of hair
